

How will DiscountSmart benefit my business?

DiscountSmart connects you to local shoppers, increases your exposure to potential customers and helps strengthen your bottom line.

As a DiscountSmart participating business, you gain exposure to an ever-increasing pool of customers as you are connected to local shoppers who seek the goods and services you offer.

Your participation extends beyond increased customer traffic. Participating businesses are

promoted throughout the community as preferred vendors of savvy DiscountSmart shoppers. Our marketing efforts on your behalf include an online presence, inclusion in DiscountSmart promotional materials and advertising in local media outlets. We

even provide signs for your business so you can proudly declare your participation in the DiscountSmart phenomenon.

To get started as a DiscountSmart participating business, you simply pay a reasonable annual investment and agree to offer special discounts to DiscountSmart members that are not available to anyone else. You will know the system is working each time a customer presents their DiscountSmart card, indicating they are a smart shopper who understand the importance of supporting their local business community.

You can earn money each time you register a new DiscountSmart member or refer a potential business participant... ask us how!

DiscountSmart[®] Smart Power | Smart Shopping

Save money. Build community. Be smart.
